

# Product Matrix

## Security • Performance • Cost • Flexibility

Fortinet® is the pioneer and leading provider of consolidated network security solutions that protect your network, against today's constantly changing threats. Fortinet provides end-to-end security solutions from the network core to the endpoint for the world's largest organizations, including global enterprises, service providers, and government agencies. We also protect small and medium businesses, branch offices, and regional locations. Fortinet offers an innovative security platform that incorporates the essential security applications and network services required to protect your environment, regardless of size. Fortinet delivers:

- Improved security with a comprehensive, consolidated security solution
- Increased performance with custom ASIC-accelerated hardware
- Reduced total cost of ownership by integrating best-of-breed security applications into a single device and simplifying your network

Fortinet network security solutions include a range of high-end chassis based systems, appliance-based solutions, virtual appliances, and management and reporting tools. These capabilities allow you to protect your critical assets cost-effectively while delivering unparalleled flexibility in deployment.

Fortinet is the only unified threat management solutions provider that owns all of its technology. We built Fortinet solutions from the ground up to integrate multiple levels of security protection—including firewall, antivirus, intrusion prevention, application control, VPN, anti-malware, Web filtering, antispam and traffic shaping—providing customers a way to protect against multiple threats today and into the future.

Contact your Authorized FortiPartner or visit [www.fortinet.com/partners](http://www.fortinet.com/partners) to find a FortiPartner near you.

## FortiGate® Multi-Threat Security

Firewall • VPN • Antivirus • Intrusion Prevention • Antispam • Web Filtering • Traffic Shaping

### MSSP AND LARGE ENTERPRISE SYSTEMS

Product (Chassis)	Firewall Throughput (512 Byte)	IPSec VPN Throughput	Concurrent Sessions	Sessions Per Sec	Antivirus Throughput (Flow)	Intrusion Prevention Throughput	Number of VDOMs	Network Interfaces	Chassis Slots / Max # of Blades	Power Source	Recommended # of Blades	Max Fabric Blades
FortiGate-5140/5140B Chassis	Up to 480 Gbps	Up to 204 Gbps	Up to 132 M	Up to 1152 K	Up to 26.4 Gbps	Up to 60 Gbps	Up to 6000	See modules below	14 / 14	DC / AC	12	2
FortiGate-5060 Chassis	Up to 240 Gbps	Up to 102 Gbps	Up to 66 M	Up to 576 K	Up to 13.2 Gbps	Up to 30 Gbps	Up to 3000	See modules below	6 / 6	DC / AC	6	2
FortiGate-5050 Chassis	Up to 110 Gbps	Up to 42.5 Gbps	Up to 10 M	Up to 250 K	Up to 11 Gbps	Up to 20 Gbps	Up to 2500	See modules below	5 / 5	DC / AC	5	2
FortiGate-5020 Chassis	Up to 44 Gbps	Up to 17 Gbps	Up to 4 M	Up to 100 K	Up to 4.4 Gbps	Up to 8 Gbps	Up to 1000	See modules below	2 / 2	AC	2	0
FortiGate-5001B	40 Gbps	17 Gbps	11 M	96 K	2.2 Gbps	5 Gbps	Up to 500	8 10GbE SFP+ and 2 10/100/100 Port with 64GB local storage				
FortiGate-5001A-SW / DW (with AMC)	2 Gbps (13 / 22 Gbps)	800 Mbps (7 / 8.5 Gbps)	2 M	50 K	1.5 Gbps	3.5 Gbps	Up to 250	2 GbE 10/100/1000 port and Double- or Single-Width AMC slot. Supports 10GbE modules.				
FortiGate-5005FA2	5 Gbps	800 Mbps	1.2 M	30 K	300 Mbps (Proxy)	3 Gbps [UDP]	Up to 250	6 GbE SFP ports and 2 FortiASIC-accelerated SFP ports				
FortiGate-5001SX and FortiGate-5001FA2	4 Gbps	600 Mbps	1.2 M	20 K	250 Mbps (Proxy)	2 Gbps [UDP]	Up to 250	5001SX: 4-GbE SFP, 4-GbE 10/100/1000 5001FA2: 2 GbE SFP, 4 GbE 10/100/1000, and 2 FortiASIC-accelerated SFP ports				
FortiSwitch-5203B FortiSwitch-5003B FortiSwitch-5003A Switch Fabric Blades	FortiSwitch-5203B, FortiSwitch-5003B and FortiSwitch-5003A delivers high availability 10GbE switching for FortiGate-5140, -5060 and -5050 chassis. FortiSwitch-5203B supports UTM function, which can be used as a standalone FortiGate module. Each FortiGate-5001A requires a 10GbE Rear Transition Module (RTM) for switching across the backplane fabric. FortiSwitch-5003 delivers high availability switching across the high-speed chassis backplane fabric.						FortiSwitch-5203B : 9-10GbE SFP+, 2-GbE 10/100/100 (Mgmt) FortiSwitch-5003B : 9-10GbE SFP+, 2-GbE 10/100/100 (Mgmt) FortiSwitch-5003A : 9-10GbE SFP+, 2-GbE 10/100/100 (Mgmt) RTM-XB2 or RTM-XD2: 10 GbE Rear Transition Module for FG-5000 Series					

### ENTERPRISE APPLIANCES

Product	Firewall Throughput (512 Byte)	IPSec VPN Throughput	Concurrent Sessions	Sessions Per Sec	Antivirus Throughput (Flow)	Intrusion Prevention Throughput	GbE Interface	SFP Interface	SFP+ (10GbE) Interface	Bypass Interface	Modular Expansion Slots	Base System Storage	Hot-Swappable Power Supplies	VDOMs (Max)

### Expansion Modules

Advanced Mezzanine Card (AMC) Modules	[Double-Width (DW) Modules:] • ADM-XD4: 4-port 10GbE FortiASIC Module • ADM-XB2: 2-port 10GbE FortiASIC Module • ADM-XE2: 2-port 10GbE Security Processing Module • ADM-FB8: 8-port GbE FortiASIC Module • ADM-FE8: 8-port GbE Security Processing Module [Single-Width (SW) Modules:] • ASM-FB4: 4-port GbE FortiASIC Module • ASM-CE4: 4-port GbE Security Processing Module • ASM-S08: 80 GB Hard Disk Storage Module • ASM-CX4: 4-port GbE TX By-Pass Module • ASM-FX2: 2-port GbE SX By-Pass Module • ASM-ET4: 4-port T1/E1 WAN Module											
Fortinet Mezzanine Card (FMC) Modules	• FMC-XD2: 2-port 10GbE Firewall Module • FMC-XG2: 2-port 10GbE IPS Module • FMC-C20: 20-port 1GbE Firewall Module with RJ45 interface • FMC-F20: 20-port 1GbE Firewall Module with SFP interface											

The FortiGate® family of consolidated security systems range in performance and physical features to meet the requirements of any sized organization. Additionally, Fortinet delivers a complete line of products that enable network managers to control, monitor, and operate networks simply and powerfully:

- FortiAnalyzer™ Appliances—Centralized logging and reporting that securely aggregates and analyzes log data from multiple Fortinet products
- FortiManager™ Appliances—Centralized command and control, configuration management and monitoring solution
- FortiMail™ Appliances—An enterprise-class family of specialized email security solutions providing antispam and antivirus protection
- FortiWeb™ Appliances - An enterprise class of Web application firewalls protection web-based applications and data

**The Fortinet Advantage:**  
Fortinet's purpose built hardware and software provide industry-leading performance for the most demanding networking environments. Our solutions provide the visibility you need to detect hidden threats within legitimate content, even from trusted sources and authorized applications.

### FortiASIC™ Purpose-Built Security Acceleration

We developed our integrated architecture specifically to provide extremely high throughput and exceptionally low latency. Our unique approach minimizes packet processing while accurately scanning the data for threats. Custom FortiASIC™ processors deliver the power you need to detect malicious content at multi-gigabit speeds. Other security technologies cannot protect against today's wide range of content- and connection-based threats because they rely on general-purpose CPUs, causing a dangerous performance gap. FortiASIC processors provide the performance you need to block emerging threats, meet rigorous third-party certifications, and ensure that your network security solution does not become a network bottleneck.

### FortiOS™ Operating System: Developed for Security

We created the FortiOS operating system specifically to offer maximum performance and protection while reducing complexity in your networking environment. FortiOS gives you the flexibility to deploy as much or as little network and security technology as you need: Firewall, IPS, Antivirus, Antispam, IPSec and SSL VPN, Application Control, WAN Optimization, DLP, SSL Inspection, full feature routing, complete logging and auditing capabilities for forensic analysis, granular multi-tenant Virtual Security Domain (VSDM) support, and a complete command line interface (CLI). We develop all our own technology, meaning there are no third party software applications included that could lead to a vulnerability. It is Common Criteria Certified EAL 4+ and Federal Information Processing Standard (FIPS) 140-2 validated.

### Global Threat Research and Updates

Our FortiGuard® Labs' global team of threat researchers continuously monitors the evolving threat landscape. The team of over 125 FortiGuard Labs researchers provides around the clock coverage to ensure your network stays protected. It delivers rapid product updates and detailed security knowledge, providing protection from new and emerging threats.

#### FortiGuard Services

- Analysis and Management
- Antispam
- Antivirus
- Application Control
- Database Security
- Intrusion Prevention
- Vulnerability Management
- Web Filtering
- VoIP
- Web Security

## Management, Analysis, & Reporting • Secure Messaging • Database & Web Security • Endpoint Security Software • Security and Support Services

MANAGEMENT, ANALYSIS, & REPORTING APPLIANCES												
PRODUCT	10/100/1000 Ethernet	10/100 Ethernet	Base System Storage Capacity	Administration Domain	Administrative Web Portals	Web Portal Users (Max)	Local Security Content	Hardware Form Factor	Network Devices (Max)	FortiClient Devices	High Availability Support	Redundant Power
